

Campbell County Kentucky

CORONAVIRUS (COVID-19)

30 March 2020

COVID-19 / Campbell County IAP / Briefing (SITREP #9)

**CAMPBELL COUNTY, KENTUCKY
ALL-HAZARDS EVENT BRIEFING FOR
COVID-19 ~ MARCH 30, 2020**

SITUATION REPORT #9

PURPOSE:

The purpose of this all-hazards event planning briefing is being provided for guidance and to prepare for the planning sequence for Coronavirus (COVID-19).

It is expected that further international exportation of cases may appear in any country, state, county, and city. Thus, all communities should be prepared for containment, including active surveillance, early detection, isolation and case management, contact tracing and prevention of onward spread of COVID-19 infection, and to share full data with community leaders.

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified during an investigation into an outbreak in Wuhan, China.

SITUATION REPORT FOR CAMPBELL

There are five (5) confirmed cases in Campbell County. There are eighteen (18) confirmed cases in Kenton County, five (5) in Boone County and one (1) in Grant County. None reported in Pendleton. See additional SITREP's below.

The Campbell County Office of Emergency Management is continuing efforts to prepare for the likelihood of more COVID-19 illness coming to Campbell County and monitoring events as they evolve by maintaining an open dialog with the Northern Kentucky Health Department and the Kentucky Division of Emergency Management. Correspondence with the Northern Kentucky Health Department remains fluid with routine updates as necessary. The Kentucky WebEOC incident name "2020- 0467-Novel Coronavirus (COVID-19)" has been establish with daily Commonwealth SITREP's and county updates. KY WebEOC: <https://webeoc.kyemweb.com:8232/eoc7/>

March 26, 2020

Central Campbell County Fire District requested through OEM / EMA, 100 N95 Mask and 200 Surgical Mask. PPE supplies was delivered.

March 27, 2020

The second shipment of Personal Protective Equipment (PPE) from the Strategic National Stockpile (SNS) arrived at the Regional Point of Distribution (POD) location in Boone County. The Strategic National Stockpile (SNS) is the nation's largest supply of potentially life-saving pharmaceuticals and medical supplies for use in a public health emergency severe enough to cause local supplies to run out. These supplies are for each county's First Responders and Healthcare providers. OEM / EMA picked up PPE supplies for Campbell County. This shipment was a very small shipment from the last.

**COVID-19 HEALTH TIPS**
When To Seek Care
To ensure the sickest people receive care, help minimize the spread of infection and maintain resources, please follow the guidelines below when considering whether to seek medical care.

Stay home	Call for advice	Seek care
If you are worried-well, please stay home or call the Kentucky State Hotline (1-800-722-5725). Going to a hospital or doctor's office adds to a higher concentration of people and further overwhelms medical staff.	If you are ill, but would not have sought care if not for COVID-19, do not seek in-person care at an ER, hospital or doctor's office. Instead please call your local healthcare provider or local health department.	If you are sick and feel you have an emergency, please call your doctor or seek medical care. Hospitals and medical staff across the commonwealth stand ready to serve you.

Please visit kycovid19.ky.gov for the latest updates on COVID-19 in Kentucky or call the Kentucky state hotline at 1-800-722-5725
